

Growth and Change to Save More Lives

These are wonderful and exciting days at Pregnancy Resource Center! As a board we are moving the ministry forward. It is our heart to see more souls and lives saved through

your investment in this ministry. Here are some of the things happening around PRC:

- **New Executive Director**, Dan Steiner. Dan is a national missionary to PRCs like ours and has helped dozens of centers grow and thrive. Dan brings tremendous expertise & experience to running our center. He is not drawing a salary, thus allowing the ministry to benefit from his rich experience with little cost. This, in turn, allows the Center to save funds and channel them directly to counseling and outreach to the unborn and moms in our community.
- **Name Change.** We are now operating under the name Pregnancy Resource Center of Southwest Florida. This name change more accurately reflects the ministry. It is our desire to use the Ministry on the Move coach to reach beyond Naples.

This means we will be in both Collier and Lee Counties. Thusly, the name works well. We are still PRC, but with a wider focus to save more!

- **Ministry on the Move** is out in the community. Since last year the MOM coach has been out in several locations throughout our county. This lifesaving tool spreads our influence to the neediest areas of our community.
- **Effective Outreach.** January and February are proving to be excellent months in outreach with as many women coming to Christ in these few weeks as did the first half of 2009!

Finally, we want to invite you to the **most exciting banquet yet** at PRC. Speakers will be David Byrd, a Bible expert and curator for the Bible museum in Arizona. We will have authentic, original copies of the 1611 King James Bible at the banquet that night. Pages from this Bible will be made available to donors to PRC! This priceless antique could make the Word of God the centerpiece of your home. Also that night, we will be hearing from Dr. Tony Levatino, a former abortionist. Come join us on March 19 to see all the exciting plans Jesus Christ is bringing to PRC.

In Christ

Deanna Pruett
Board Chairperson
PRC of Southwest Florida

A Life Changed at PRC....

Peggy came in for a pregnancy test with her boyfriend, Bob. They had planned on going to Planned Parenthood that morning, but decided to come to the Center first. She is separated from her husband and living with Bob. Bob left the country for a few months and Peggy reconnected briefly with her husband. Bob came back and they are working things out to stay together.

Peggy shared that she just talked to her husband on the phone prior to coming into the PRC. He was with

After viewing the video Bob said, "I could never let her go through with that, I feel shaky and sick just thinking about it."

his girlfriend at that exact time at an abortion clinic and he could hear her screaming in the background. He told Peggy she should keep the baby and that he didn't know what was going on with his girlfriend in the clinic exam room.

Peggy's test was positive. She isn't sure if the father of the baby is Bob or her estranged husband. Peggy shared with the counselor that she feels abortion is a very real option because of not knowing the paternity. The counselor discussed the abortion procedures and risks with Peggy and also shared the Gospel. The counselor invited Bob into the counseling room during the discussion.

They agreed to view the DVD in

which a doctor explains the procedures and risks of abortion. After viewing the video and the discussion Bob said, "I could never let her go through with that, I feel shaky and sick just thinking about it." Peggy agreed and said she felt the same way.

The counselor set up an ultrasound appointment for the next morning. They were relieved to see the baby and hear the heartbeat. The counselor had a brief discussion alone with Bob. He said they decided to go ahead with the pregnancy and he would support her no matter what happens with the paternity.

They are interested in going to church. The counselor gave them the church listings, pointed out churches close to them, and even offered to go with them. They did not receive Christ at the time of their visit, but seeds were planted and watered.

Ministry on the Move Update

Pregnancy Resource Center's newest outreach, the *Ministry on the Move Mobile Ultrasound Unit* is **on the road**. This unit travels to areas in Southwest Florida with the highest population of abortion-vulnerable women, reaching women before they choose the abortion clinic. Current locations are close to Baron Collier High School, around Golden Gate and East Naples. Other locations will be added as God provides.
